Total amount of Nickel worked during the year ending Mch. 31. 1869. was ^{val.} 3013958.30
to which is added the amount worked up to settlement April. 10. 1869. ^{val.} 106749.10 making in all. Troy ^{val.} 3120707.40
or in round nos. about. 96 Tons.

In settling the Base Coinage $\frac{1}{2}$ both in the Nickel and Copper, the amount on hand exceeded ^{val.} a small surplus (100 to 200 ^{val.} in each $\frac{1}{2}$) the balance as shown by the Chief Coiner's and Treasurers Ledger. The whole amount on hand was taken by the Treasurer as the even Balance, in order to prevent a confusion of accounts, and so delivered to the Chief Coiner in the same manner.

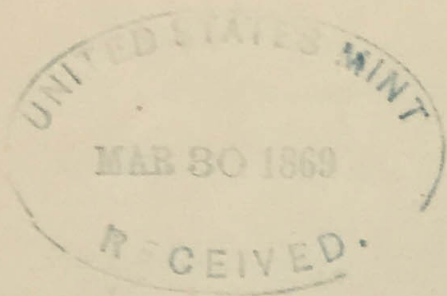

The Nickel 3 & 5c. Coinage $\frac{1}{2}$, was settled up to, and including April 10. 1869. The reason for this was, that the balance due the Treasurer at the close of the Quarter, was not available, owing to the greater part of it being in process of coming, and it was deemed advisable under the circumstances to defer the settlement until the early part of April.

An opportunity presented itself, on the 10th of April, in consequence of the working of copper, and the settlement was made as above stated.

It is alleged that an undue preference is given, in the purchase of Nickel for the Mint, to that of American production though at a greater price, over the imported article, which it is also stated is of better quality than the domestic. I will thank you to examine the subject and state what objection there is, if any, to advertising for proposals, and awarding the contract to the lowest responsible bidder, for Nickel, irrespective of its origin. I have now to request two things;
First; that Mr. Barber and myself may be allowed to devise and get up a series of 50, 25, and 10 cent pieces, to serve as an illustration of size, but not to be actually adopted, as to designs.

Second; that you will address the following inquiries to the Branch at San Francisco:

1. Is there a superfluity of silver coin in your part of the country.
2. Is it customary to pay and receive the same, in larger sums than five dollars, according to the legal tender limit.
3. Is there any considerable flow of this coin into Mexico, and other foreign parts.
4. What amount of silver coin, in pieces of 50, 25, and 10 cents, would in your judgment suffice for California, and the contiguous states where your issues circulate.
5. Would there be any difficulty in introducing the nickel coins there, if they are made a limited legal tender and redeemable in legal currency; that is, in greenbacks until they rise to par, and then in gold, or silver coin.

6. What.

Dear Sir

Observing by the papers that The Senate Committee of Finance had again reported their "Bill for the coinage of Gold & Silver," I wrote in your absence to Senator Sherman, and requested that the Silver part might be deferred, as I was preparing a plan for putting the Silver coinage on a new basis, and also revising our incongruous double system of weights. I received a very pleasant reply, stating that he did not intend to urge its passage now, but merely wished to place it before the public, and would be glad to see my project. I do not expect to have it fully ready for two or three months to come, as I find it necessary to weigh all objections, and state all my reasons. It will form a considerable pamphlet, and I hope to be able to print the Directors approbation on its front face.

CHIEF COINER'S DEPARTMENT.

Philadelphia, April 14th 1869

Dr. H. R. Linderman

Director U. S. Mint

Dear Sir

Please find enclosed Statement of the settlement of my accounts with the Treasurer. I hope you may pronounce them satisfactory.

The wastage in working of Gold is the smallest that we have any record of, in this Department. Whilst the wastage on the Silver is far within the legal limits, I most respectfully represent that it could be much reduced if the Officers at the Assay Office, New York were more particular in refining the silver sent from there for coinage. I presume it is the small quantity of zinc, that is allowed to remain in the Silver, that renders it so brittle, and that subjects me to so much loss in working. I think it proper that I should make these representations, as I am convinced that the loss in working Silver if properly refined, would be much less than it is at present.

I have the honor to remain

I have ordered the lumber in Carson. I have sketched the Engine foundation & the piers for the Counter shafting, & sent them to the stone quarry at the State prison near Carson City, they will have to be built of stone as we have only 26 M^{sch} bricks on the spot, & cannot get any more in Carson.

It would cost some 125. gold per M for freight to ship them from here.

There is some work yet to be done to complete the building, topping out main chimney, building partition wall

CHIEF COINER'S DEPARTMENT.

Philadelphia, April 22^d 1869

Dr. H.R. Linderman

Director U.S. Mint

Dear Sir

I have the honor to communicate that my recent visit under instructions, to Ottawa, Canada, was not attended with the gratifying results, that followed my former visits to Brockville, and Stratford, owing to the fact that the Hon. Mr. Cameron, Counsel for the defence in the cases at Ottawa, demurred to the indictment, and the Judge preferred that the demurrer should be argued before a full bench at Toronto. My own judgment is that the demurrer will be over-ruled, and in that event the cases will be tried at Ottawa during the present fall. The implements used by the Counterfeiters indicted at the Ottawa Assizes are of the most perfect character in every respect, that I have ever seen, - one or two of the tools used by them are of the most perfect character, and look almost as if from the same pattern as those used in my Department. The amount of material found in their possession, amounted to many hundreds of pounds.

In accordance with the wishes of the Canadian

authorities, it will be necessary for me to communicate orally some information to the Honorable Secretary of the Treasury, which it was not considered desirable to place on record.

I have therefore to request, that I have leave to proceed to Washington for the purpose above named at the first convenient season.

I have the honor to remain

Sir.

Geo. W. Eyster Esq^r having been appointed and qualified as your successor in office, I have to instruct you upon the receipt of this letter to cause a careful and accurate count to be made of all money in your possession due to the ~~Treasurer~~ or any other officer of the United States, for which he will give receipt to you. You will likewise make a schedule of public property, books, papers and accounts belonging to the Asst. Treasurers office the schedule representing the accounts of the various officers as well as the schedule of property &c should be made and signed in quadruplicate one copy to be retained by you, one by Mr. Eyster, one to be filed in the office as a part of its records, and the other transmitted to me.

You will close all accounts which you may have with the Department in your capacity as fiscal agent - such as accounts

for the payment of interest on the Public Debt, payment of Salaries and contingent expenses, by depositing to the credit of the Treasurer of the United States any balances which may be due on these accounts where you have received advances from the Treasury, forwarding your accounts with vouchers to the proper officers for settlement. Should you have made any expenditures upon vouchers which you are carrying as cash items in your balances due to the Treasurer of the United States you will forward such vouchers for settlement with the request that a warrant for reimbursement of the amount found due may be issued upon settlement of the account. Your successor will not receipt to you for such items, but they should all be noted upon the statement of liabilities and assets of the office. As soon as these instructions shall have been complied with you will surrender the office to Mr. Eyster advising me by

Dear Sir

I have obtained proposals for the new columns of the mint at Philadelphia, according to my promise, and find the amount required is greater than the funds at the disposal of the Department will permit. I will, however, include an estimate for the amount in my next years estimates, which is all that can be done.

I presume, however, that you are not now as anxious on the subject as you were some time since.

MELTING AND REFINING DEPARTMENT,

Cover

Philadelphia, 14. May. 1869

Hon. James Pollock
Director U. S. Mint

Dear Sir

I regret that it becomes my duty to report to you that the last of fine gold bars received from the N.Y. assay, is so unfit for coinage that we are obliged to remelt, toughen, re-assay, and again melt the bars, at a considerable expense, before they are fit for coinage. We were not aware that the metal was in this condition until pieces of our Ingots were chipped off for assay; & some that even then appeared passable, have been condemned in the rolling.

Altho the bars showed a good fineness, assay $997 \frac{1}{2}$ & $997 \frac{1}{2}$, yet the $2 \frac{1}{2}$ to 3 m. was tin & lead, quite enough to ruin

May 1869 Copy mailed to Geo. A. Dunning &
Sept N. Y. Assay Office.

1861

the gold for coinage.

I do not think the quality of those bars speaks well for their method of refining, & I may say in this connection that almost all the lots of fine bars received from the N. Y. Assay Office, altho of high degree of fineness, contain more or less of lead, quite sufficient to give us trouble in throwing them into Ingots for coinage. I would urge the necessity of drawing the attention of the Superint^d to the above facts, & requiring the removal of lead & tin from their fine bars, that are to be sent to the Mint for coinage. The removal should take place while the gold is in process of refining, & not after melting, on the ground of facility, perfection of removal & diminished expense

very truly yours

This letter is too indefinite. There was a letter of instruction came to the Mint in reference to a deposit from N. Mexico but whether it is here now or not I do not know. I think it was sent ^{from the Mint} to the U.S. Exp. Co. some time ago. If it is here it must be in the ^{Director's} file of letters and if C. P.
